

## Call For Abstracts

***43rd ANNUAL  
CATA  
CONFERENCE***

***Hosted by:  
Canadian  
Athletic  
Therapists  
Association***

***Vancouver,  
British Columbia  
May 27-30, 2009***

**NCOC**  
NATIONAL CONFERENCE  
OPERATIONS COMMITTEE

---

**DEADLINE FOR ABSTRACT SUBMISSION: MARCH 1, 2009**

[Instructions for Submission of Abstracts and Process for Review of All Submissions](#)

Please read all instructions before preparing the abstract. Individuals may submit only one abstract as primary (presenting) author, but may submit unlimited abstracts or

clinical case reports as a co-author. All abstracts will undergo blind review. Data must be original (unpublished) and not have been previously presented.

### Specific Content Requirements:

Abstracts must include the purpose of the study or hypothesis, a description of the subjects, the experimental methods and materials, the type(s) of data analysis, the results of the study, and the conclusion(s). *Authors should take note that depending on the number of submissions the format for abstract presentation may be poster or verbal presentation.* Authors are required to categorize their abstracts in one of the following specific areas of research:

*Basic Science* - includes controlled laboratory studies in the sub disciplines of exercise physiology, biomechanics, and motor behaviour, among others, which relate to athletic therapy and sports medicine.

*Clinical Studies* - includes assessment of the validity, reliability, and efficacy of clinical procedures, rehabilitation protocols, injury prevention programs, surgical techniques, and so on.

*Educational Research* - a broad category ranging from basic surveys to detailed athletic training/sports medicine curricular development. An abstract in this category will generally include assessment of student learning, teaching effectiveness (didactic or clinical), educational materials and curricular development.

*Sports Injury Epidemiology* - includes studies of injury patterns among athletes. These studies will generally encompass large-scale data collection and analysis. Surveys and questionnaires may be classified in this category but are more likely to come under the Observation/Informational Studies category.

*Observation/Informational Studies* - includes studies involving surveys, questionnaires, and descriptive programs, among others, which relate to athletic training/therapy and sports medicine.

### Instructions for Preparing the Abstract

Provide all information requested on the Abstract Author Information Form.

Abstracts should be word-processed using no smaller than elite (12 cpi) or 10-point typeface. Top, bottom, right, and left margins should be set at 1.5" using a standard 8.5" x 11" sheet of paper. Type the title of the paper or project starting at the left margin.

On the next line, indent 3 spaces and type the names of all authors, with the author who will make the presentation listed first. Type the last name, then initials (without periods), followed by a comma; continue with the other authors (if any), ending with a colon. Indicate the institution (including the city and province) where the research was conducted on the same line following the name(s) of the author(s).

Double space and begin typing the text of the abstract flush left in a single paragraph with no indentation. Do not justify the right margin. Do not include tables or figures. The abstract must not exceed 400 words.

## Instructions for Submitting Abstracts

Complete the form, the original abstract, one (1) blind copy (showing no information about the authors or institution) of the abstract. Send these electronic files to:

**Richard DeMont, PhD, CAT(C): demont.conu@gmail.com**

**Subject: CATA Conference-09 Abstracts** (your name)

**DON'T FORGET TO ATTACH THE FILES!**

Early bird Registration deadline: April 1st

Notification of acceptance will arrive before early bird deadline.

---

# Abstract Author Information Form

**ABSTRACTS EMAILED AFTER MARCH 1, 2009 WILL NOT BE ACCEPTED.**

Information for *Presenting* Author (Please type; provide full name rather than initials):

Name/Credentials \_\_\_\_\_

Mailing Address \_\_\_\_\_

City \_\_\_\_\_

Prov \_\_\_\_\_

Code \_\_\_\_\_

Work Telephone \_\_\_\_\_

Fax \_\_\_\_\_

NATA/CATA Membership Number (if applicable)

\_\_\_\_\_

email \_\_\_\_\_

Name of Institution \_\_\_\_\_

Key Words: (two to six words that identify your abstract)

\_\_\_\_\_  
\_\_\_\_\_

Indicate the most appropriate CATEGORY for your presentation (check one only):

Basic Science

Clinical Studies

Educational Research

Sports Injury

Observation/Informational Studies

Epidemiology
